

## St Aidan's and St John Fisher Associated Sixth Form

## Y11 to Y12 Transition Work

Topic(5): Applied Anatomy and Physiology, Skill Acquisition and Socio Cultural Issues in Sport         Independent Learning Task(s) to Complete:         Evaluation and Analysis of Sport.         Development of sport Research         1. Select a sporting skill – For example; a long pass in football, a shot in netball, a tumble turn in swimming etc.         2. You must then find the following information about that skill:         • Physiology: Identification of joint type (s) and its movement range(s), identification of muscles involved and the type of movements and contractions. Joint movement analysis - Hodder Education Magazines         • Biomechanics: Importance/relevance of Newton's Laws in the performance and analyse lever systems in operation during the skill. Sprint starts and Newton's laws of motion - Hodder Education Magazines         • Psychology: Classification of the skill/technique on the skill continuum and Information processing demands on the performance. Classification of skill - Hodder Education Magazines         • Put this information into a document and bring to the first lesson.         4. Socio Cultural: Read the two articles below on how modern sport evolved in Pre -industrial Britain and in the Public Schools of the mid to late 1800's. How mob games led to modem sport. Hodder Education Magazines         Public school influence on the development of sport. Hodder Education Magazines         Public school influence on the development of sport. Hodder Education Magazines         Public school influence on the development of sport. Hodder Education Magazines         Public school influence on the developm	Subject: PE
